ANALYSIS MATHEMATICA

TOMUS 12

1986

CONTENTS — СОДЕРЖАНИЕ

Arató N. and Márkus L., On the solution of a Schrödinger-type equation	307—312
Bennett G., Majorization versus power majorization	283—286
Daróczy Z. and Kátai I., Additive functions	85-96
Daróczy Z. and Kátai I., Continuous additive functions and difference equations of infinite	
order	237—249
Dzhrbashyan M. M. and Martirosyan V. M., Integral representations for some classes of	
functions holomorphic in a strip or in a half plane	191-212
Džafarov A. S., Bernstein inequality for differential operators	251-268
Ефимов А. А., Приближение непрерывных функций средними Эйлера	97-113
Gevorkyan G. G., On U_{φ} -sets of trigonometric integrals	
Korobeinik Yu. F., On shifts of sequences	
Kudryavtsev L. D., On norms in weighted spaces of functions given on infinite intervals	269-282
Леонтьев А. Ф., К вопросу о представлении аналитических функций рядами обоб-	
щенных экспонент	213-228
Лукашенко С. Ю., О множествах расходимости рядов по некоторым ортогональ-	
ным системам функций	23-48
Móricz F. and Totik V., Pointwise convergence of multiple Fourier series using different	
convergence notions	49-57
Oskolkov K. I., Inequalities of the "large sieve" type and applications to trigonometric	
approximation	143-166
Pathak R. S. and Sahoo H. K., A generalization of H_{μ} -spaces and Hankel transforms	129-142
Roy S. K. and Chakraborty N. D., Orlicz spaces for a family of measures	229-235
Runst T., Mapping properties of non-linear operators in spaces of Triebel-Lizorkin and	
Besov type	313-346
Sadrin A. Yu., Orders of one-sided approximations of functions in L_p -metric	175-184
Schipp F. and Nguyen Xuan Ky, On strong summability of polynomial expansions	115-127
Simonov B. V., On imbedding of certain function classes in symmetric spaces	3-22
Soljanik A. A., On the order of approximation to functions of $H^p(\mathbf{R})$ $(0 by$	
certain means of Fourier integrals	59—75
Tsuchikura T., On the absolute summability of trigonometric series	77—84
Темляков В. Н., О восстановлении периодических функций нескольких переменных по	
значениям в узлах теоретикочисловых сеток	287-305
